CONTENTS VOLUME 241

S.V. Vladimirov, M.Y. Yu, V.N. Tsytovich. Recent advances in the theory of nonlinear surface waves — No. 1, p. 1

M. Charlton, J. Eades, D. Horváth, R.J. Hughes, C. Zimmermann. Antihydrogen physics — No. 2, p. 65

S.A. Babin, D.A. Shapiro. Spectral line broadening due to the Coulomb interaction in plasma — Nos. 3 & 4, p. 119

F.G. Bass and L.B. Vatova. Large-amplitude electromagnetic waves in conductors with a nonparabolic charge carrier dispersion law — No. 5, p. 219

E. Arragoni, C. Castellani, M. Grilli, R. Raimondi, G.C. Strinati. Functional-integral formulation of the slave-boson approach: beyond the mean-field approximation with the correct continuum limit — No. 6, p. 291
